

Harrietsham Governors Strategic Vision 2023 – 2026

Stand A: Collaborative Working

1. To strengthen partnerships with other schools, local organisations, and the wider community, sharing curriculum expertise and enriching teaching and learning experiences for all children at Harrietsham CEP School.
2. To embed clear roles, responsibilities, and collaborative practices within the Senior Leadership Team, ensuring their shared vision and values drive high-quality education, professional development, and strong support for the Headteacher.
3. To develop a well-structured staffing model that prioritises tailored professional development and clear leadership pathways, ensuring all staff feel confident, supported, and equipped to excel in their roles and contribute to long-term succession planning.

Strand B: Greener Governance

1. To embed sustainable practices across all areas of school life, focusing on energy use, food, waste, procurement, transport, water, nature, and curriculum - so that Harrietsham CEP School becomes a model of environmental responsibility for its pupils, staff, and wider community.

Strand C: Improving Wellbeing and Developing Spiritual Whole Child

1. To encourage staff and pupils to recognise points of wonder and spirituality.
2. To provide rich and varied opportunities for children to broaden their knowledge, explore new experiences, and develop a strong sense of global citizenship - locally, nationally, and internationally.
3. To recognise and celebrate our diverse community.
